Display Solution for 6IXTY8IGHT Singapore

TVS has completed a video wall with signage system integration project in 6IXTY8IGHT Singapore. By using the Cayin signage system, the video wall and kiosks can show the products update, commercial advertisements and posters which can facilitate the company to promote its latest products and TVC to the target customers.

Interactive Solution for Chi Yun School

With the relocation project of Chi Yun School, TVS has completed a unique creative solution – Fog Screen Projection Screen in Hong Kong. With the use of ordinary tap water and high lumens projector, it produces a thin curtain of “dry” fog which enables projected images to literally float in the air. Students and visitors can walk right through a Fog Screen projection screen without getting wet.
